

Bookshops

It is essential that you buy textbooks to supplement the study materials we give you. Advice on which books to buy and how many is usually given in each subject guide, but on average you will need two or three per subject. This information was correct at the time of publication.

On the following pages we give details of bookshops which International Programmes students have found useful. Those marked  enable you to place orders online, while those with a  symbol have mail order facilities. You are advised to contact the bookshops directly to check whether they stock books in your subject area.

If you find a bookshop which is not in this list but has given you a good service, please send us details (see the address on the Comment form in the *handbook*) and we will contact them to ask if we can list them here next year.
