International investment law

Section C: Regulation under bilateral and regional investment treaties (BIT's)

Candidates should answer **ONE** of the following **TWO** questions.

1. Critically assess the recent trend in the definition of the term 'investment' in free trade agreements. Is there a difference in international and bilateral approaches to this definition in the practice of States?

2. "Regardless of the negotiating position taken by various States at the international platforms, when it came to negotiating bilateral investment treaties the host States have, by and large, accepted the Hull Formula and agreed to the provisions favoured by the home States."

Discuss.
