

London School of Hygiene & Tropical Medicine (LSHTM) Qualifications for Entrance

The following list was published in March 2016. It is reviewed and updated annually and therefore is subject to amendment in future years. You are asked to note that applications will be considered on the basis of the list that is in effect at the time the application is received in the Admissions Office.

This list presents examples of qualifications that the University has accepted previously as meeting the standard entrance requirements. If your country or qualification is not listed and you would like advice about our requirements before submitting an application then please [contact-us](#)

All of the below entries must be awarded by an institution/university/authority that is acceptable to the University of London. This generally means the awarding body must have the appropriate power and/or has satisfied any relevant accreditation process that is required within the country of origin.

Appropriate subject: this must be appropriate to the course that you intend to study with us. If you would like advice on what subjects we consider appropriate then you can [contact-us](#) before submitting an online application.

Acceptable equivalent: refers to when a university uses an alternative grading system to what we have published. If this is relevant to you then you can [contact-us](#) before submitting an application for advice on what we consider the acceptable equivalent to be.

Other Academic/Professional Qualifications and Work Experience: If you do not hold a degree then we can still consider you on the basis of other academic/professional qualifications and work experience. We consider such applications on a case by case basis.

In addition to the below requirements you will need to satisfy our English language requirement. This can be found under the 'Requirements' section of your chosen [course](#)

Please note: this list is given for guidance purposes only and the University of London reserves the right to amend it at any time.
